GENERAL PARAGRAPHS

There is considerable opposition in [illegible] New York [illegible]

—Bees are curious insects. [illegible]

—Arsenic was found in the stomach and liver of [illegible] on post mortem held the other day at London, Ohio, but the jury failed to find who caused it to be there. His widow—much younger than he was—has married since and is under arrest.

—A Boston physician says that a fine young girl, full of intelligence and promise, has been killed outright by the severity of the tasks imposed upon them in a high school in that vicinity.

—There are 104 spoken languages.

—A deposit of plumbago has been discovered near Lynchburg, Virginia.

—Six hundred thousand baskets and crates of Delaware peaches were sold in the New York market during the past week.

They had a rowing match in Cincinnati by horse—Horse being the girls name.

—Forty rattlesnakes were killed in a hollow log in Bedford county the other day.

—A well at Avon, New York, caved in on Saturday morning burying [illegible] twenty-five feet underground. Work at once began at digging him out, and after he [illegible] he was rescued alive with but slight injuries.

—Chambersburg has monthly Horticultural exhibitions.

—Of twelve Sing Sing convicts who escaped on a steaming boat last week eight have been recaptured. One of them made a desperate resistance and was badly wounded. He fired several shots at the officers.

—A woman died in a New York hospital on Saturday of a disease which physicians pronounced to be Asiatic cholera. The case was afterwards investigated by a coroner's inquest which seems to have established that it was not a case of cholera, as the woman had been drinking to excess and had also eaten a quantity of unripe peaches.

—The Martins have gone South. Look out for cold weather.

—Some of the New York lawyers have recently found a new nut to crack, in the shape of the legality of Sunday marriages.

—The "Government" is still amusing itself at Long Branch.

—The cholera has made its appearance both in London and Paris.

—The Prince Imperial of France, the son of Napoleon, is coming to this country before long.

—From reports afloat it seems that the United States is to become the refuge of fallen monarchs. The ex-Emperor Napoleon is said to be negotiating for the purchase of an estate on Long Island, while the deposed Queen of Spain wants to buy the famous Jumel estate not far removed.

—There is to be a triangular municipal battle in San Francisco. The Democrats, the "pieces" party, and Radicals will have full tickets in the field.

—Major General George Stoneman, United States army, has been put on the retired list on account of disability.

—Schuyler Colfax has been making goody speeches to Sunday School scholars at Winona, Minn.

—The relatives of the victims of the Westfield explosion have instituted some fifty suits for damages against the Staten Island Ferry Company.

—The opinion has been expressed that one half of the cases of cancer of the lip originate in the pressure of the stem of tobacco pipes upon the lip.

—Patches may be fastened upon rubber boots and shoes, or cracks and rents closed up, with a cement made by dissolving rubber cut fine in benzine.

—Forty-four vessels, gauging 38,000 tons, passed through the Suez canal in June. One steamer had touched sixty times on the way.

—Mrs F M Stanton now resides in a commodious dwelling at Germantown, in the environs of Philadelphia, and her income from the Stanton fund is about $7,000 a year.

A HEARTLESS young villain of Texas who was lately convicted of murdering his father and mother, on being asked if he had anything to say why sentence of death should not be pronounced upon him, said, "Nothin' Judge, only that you oughtn't to be too hard on a poor orphan!"

GLASS BLOWING

It is very curious what wonderful transformations take place in the original elements from which glass is made, when submitted in a heated state to the mysteries of the blow pipe. [illegible] glass is manufactured into almost every conceivable shape and form. Animals, birds, ships, vases, bouquets, chlorate toys and gorgeous flowers are among the wonders emanating from the workshop of the skillful artist in this material. Many curious styles in this manufacture are worthy of careful attention. Of these the most important are various colored scientific implements, glass globes, [illegible] glass, etc.

The manufacture of glass is said to have been discovered by the Phoenicians. Pliny describes the circumstances as follows: A company of Phoenician merchants having landed on the coast of Palestine near the mouth of the river Belus, were preparing for the repast, and not finding any stones on which to place their pots, took some cakes of nitre from their merchandise for that purpose. The nitre being thus submitted to the action of the fire with the sand on the shore, they saw the product a transparent stream of an unknown fluid, and such was the origin of glass. This account is generally denied by chemists who discredit the possibility of substance of this nature being liquefied in the open air. However this may be, it is certain that the Royal Egyptian mummies are decorated with necklaces of glass beads, and that the art and mystery of glass manufacture was very perfectly known more than three thousand years ago.

The wonderful Portland vase, so long believed to be made of cameo, is now known to be made of two layers of glass interwoven with curious figures of singular grace and beauty. It was found near Rome in the sixteenth century enclosed in a marble sarcophagus. For two hundred years it was the admiration of visitors at the gallery of the Princess Barberini at Rome. It was subsequently bought by the Duchess of Portland, for eighteen hundred and seventy-two pounds sterling. From the latter lady it derives the name by which it is at present known.

The most expert workers in glass are the Bohemians and Venetians, who manufacture beautiful work of the most exquisite forms. For grace of outline and ornamentation these people surpass all other nations in this special department. The colored Bohemian glass has a richness and beauty of finish that is not diminished by constant use or lapse of time. The glass works of Choisy, in France, are among the most celebrated in Europe, and their wares have a reputation in the four quarters of the globe. In many special branches of manufacture England and France excel other nations. The United States have also made progress in this beautiful art, and many of our own manufactures equal the finest productions of Europe in both plain and decorated work.

Spun glass has been well known to the inhabitants of the East for many centuries. Glass threads of various colors were woven with silk, and these gorgeous fabrics were worn by the nobility and gentry of a hundred years ago. The courtiers of Louis IV wore flowing wigs made of this material, and the black and curling locks so nearly resembled the human hair as almost to defy detection.

At the Conservatoire des Arts et Métiers at Paris, may be seen a lion in glass of the size of life with very limbs and feature perfect. His hair looks fresh and lifelike. With flashing eyes and bristling mane he is intent on striking a serpent. This application of the art is most remarkable. The artist can assimilate the color of the object to those of the natural skin. The finest productions of the loom can also be imitated in the same way. Instead of plaster casts and stuffed birds and beasts, the modern museum can by this means secure an accurate likeness of all objects worthy of preservation without danger or injury from moths or the effects of time.

AN IMPORTANT LITTLE CUSS.—Parson O., a well known New England divine, used to tell the following story with evident relish.

As was the custom in those days, he had taken into his family a poor lad as "chore boy."

It occurred to him one day, that he ought to interest himself in the lad's welfare.

Acting upon the thought he at once called him into his study and with visage solemnly composed, according to the pattern then deemed most desirable when religion was the topic, addressed the urchin as follows:

"Sam, do you know that you are a sinner?"

"Yes," falteringly replied Sam.

"Do you know what will become of you if you do not repent?"

Receiving no coherent reply, he launched into repentance and redemption, encouraged by the evident impression made by his words and feeling no small compunction the while that he had so long neglected a "subject of grace" so promising.

At last a vacant and wandering look roused a sudden suspicion to verify which he inquired:

"Sam, what is a sinner?"

Imagine the situation when the "subject of grace" promptly responded:

"Sinner, sir? Yes, sir, sinner is strings in turkeys' legs, sir."

The sinews of the parson's face relaxed.

AN American clergyman writes in one of the papers: "London has what it calls Sunday schools, but they are generally only a milder form of inquisition. The school of Dr Cumming's Church was without picture or pleasant sight, and had thirty-seven scholars. Spurgeon's school room is a sepulchre. The seats are narrow and without backs, and remind one of the Irishman's idea of a fine cemetery when he thought it a 'very healthy place to be buried in.'"

A VIRGINIA editor has come to the conclusion that a man might as well undertake to hold himself at arm's length and then turn a double somersault over a meeting house steeple as to attempt to publish a paper that will suit everybody.

THE greatest mass of solid iron in the world is the Iron Mountain of Missouri. It is three hundred and fifty feet high, and two miles in circuit.

PRIDE, TURN OUTS AND POVERTY

Man wants but little here below, and woman wants a great deal more. I am sorry to say what is a very nice correspondent. [illegible] I speak of them generally. [illegible] You see more of them at summer resorts than anywhere else. These people will talk no matter where they are, they will exhibit their temper and bad breeding no matter where you meet them. [illegible]

[illegible]

Clara [illegible] establishment.

Why can't we have a carriage as well as other folks?

The husband moved uneasily in his chair and responded: "Simply said, because we want to live within our means."

"Bother about the means," retorted the haughty and thoughtless wife.

"We ought to live as well as other people," she continued.

So we do, my dear, and will in the long run, mildly added the good natured Charles.

"I am sure we ought to live in as good style as the S——s, the F——s, the M——s, the P——s, the C——s, and a dozen more I might mention. We ought not to appear mean."

"Mean?" he exclaimed, showing much temper. "We want, we want," he muttered, "the same story; our women's wants do what you may," and he abruptly rose from his chair and took the direction of Chamberlain's office.

How many broken hearts are in such a dilemma? How many houses and husbands are rendered uncomfortable by the constant dissatisfaction of a wife with present provision? How many bright prospects for business have ended in bankruptcy and ruin in order to satisfy this secret hankering after fashionable necessities? Could the real cause of many a failure be made known, it would be found to result from the ambition of women to live above their means.

My wife made my fortune, said Mr D——, a gentleman of great possessions, "by her thrift, prudence and cheerfulness when I was just beginning."

And mine, poor soul, she said to Mr R——, a widower, "lost my fortune by useless extravagance and repining when I was doing well."

What a world does this open to the influence of woman to our families and their future prosperity of their families. Let the wife know her influence and try to use it wisely.

A CALIFORNIA lady tells with relish how she gave a rap on the knuckles to one of the secondary parts of the High Commission. She was praising the Golden State. "Always," said the gentleman, "a fine place no doubt, but shouldn't like to live there, you know. You have earthquakes there, and they are such shocking nuisances." The lady laughed and said to a bystander, "What an excellent joke!" He calls earthquakes 'shocking nuisances.'"

"Madam," said the supposed wit, moving away with offended dignity, "I never pun. It's so dreadfully vulgar, you know."

WHO WILL PLANT? Here is a good one on the "Lilac bugs." Three men were comparing notes.

One says: "There are two bugs to every stalk."

A second says: "They have cut down my early crop and are sitting on the fence waiting for the late crop to come up."

"Pshaw," said the third, "you don't know anything about it. I passed a seed store the other day and the bugs were in there looking over the books to see who had purchased seed potatoes."

TOO MANY PLACES.—A gentleman whose love of order was largely developed had a clerk in his employ whose habits about the office were anything but orderly. Nothing under his hand had a fixed locality, and everything was at odds and ends. This carelessness brought out a reproof from the employer, who, after a general lecture on the subject of methodical arrangements, quoted the old precept and said: "Sir, you should have a place for everything." "I have, sir," replied the junior, "a great many places for everything."

AFTER sentence had been passed upon Lord Stafford the latter begged for certain modifications when Lord Chancellor Nottingham proceeded as follows: "My Lord Stafford, I believe I may with my lords' leave tell you one thing further, that my lords, as they proceed with the rigor of justice, so they proceed with all the mercy and compassion that may be, and therefore, my lords will be humble suitors to the king that he will remit all punishment but the taking off of your head."

IN the time of the first Napoleon, when a draft was made for soldiers one man had a substitute put in his place. After a time another draft was made and the same was called again but he said, "I am free. I sent a substitute into the army and he was killed, so I am a dead man." The case was carried to the courts of France, and it was there decided that the man was free.

WHILE a vender of greens in Boston was endeavoring to dispose of his stock in trade his poor old nag balked, and refused to budge an inch. The driver finally commenced belaboring the animal with a stick, when an old lady thrust her head out of a window and exclaimed: "Have you no mercy?" "No, ma'am," replied the pedlar, "nothin' but greens."

"COMPOSITION day," says Fanny Fern, "in my school-days, was only a delight to me. But you should have seen the idiot I was in arithmetic or algebra, or historical dates! How I punched the girl next to me to help me out, and how gratefully I remembered, in after years, and embroidered my gratitude on her first baby's little flannel petticoat!"

IT is easy to talk of christian forbearance among neighbors, but to practice it ourselves proves us to be christians indeed.

SPEAKER BLAINE'S SPEECH.—Speaker Blaine's harangue at Saco [illegible] [illegible] South.—New York Journal of Commerce.

AN eccentric genius named Cornell died recently at Oxford, N. Y., leaving several children, two of them daughters and Republicans. By will the old gentleman cut off these two daughters on account of their politics. The following is the disinheriting clause:

"Item: Believing that the natural conception [illegible] of the ballot [illegible] approved [illegible] my daughters Cornelia A. Wood and Ruby Horack [illegible] It is my will that the said [illegible] may be [illegible] my said daughters Cornelia A. Wood and Ruby Horack, and it is my will and I hereby direct that they receive nothing from my estate, either real or personal."

The daughters does not have now set out to contest the will.

A SINGULAR REMEDY.—Whenever Paris found himself indisposed he ordered a kettle of water to be kept boiling, of which he drank large quantities, sometimes as much as four or even six pints in a morning without any mixture, in infusion, and as hot as he could bear. His maxim was to pour thus a pint at a time into the stomach and to drink it with a spoon as if it had been soup. Warm water, he said, would relax and macerate, but hot water was the finest stimulant and most powerful restorative in the world. He certainly thought it a sovereign cure for every complaint, and he not only took it himself but prescribed it with the confidence of a Sangrado to every patient that came in his way.

A BILL was passed by the Legislature of New York making it a misdemeanor to jump upon railroad trains, whether passenger or freight, punishable with a fine, or imprisonment, or in case of a refusal, with imprisonment. In the western part of Pennsylvania about a year ago an engineer gave a youngster a sound and well deserved cuffing for persisting in this endangering his life after repeated warnings. The boy's father prosecuted the engineer, and succeeded in having him fined. When about six weeks afterward the lad had one of his legs taken off by falling under a train, the sympathy bestowed upon the afflicted parents was not excessive.

A NEW DRUM.—One of the prizes recently awarded at the volunteer encampment at Wimbledon, England, was to the drum of an entirely new construction. The drum has one head which instead of being of parchment or vellum is made of thin steel, and is beaten by sticks with india-rubber tips. The advantages claimed are that the head is practically unaffected by damp or changes in temperature, is practically indestructible, and can be tuned more simply than the ordinary drum. An ingenious contrivance of springs is substituted for "snares," or strings, which give the peculiar rattle to the ordinary side drum.

IN a trial in Washington county N. Y., last week, a certain deed was proved to be fraudulent, it being dated January 7, 1827, and paper manufacturers testifying that such paper as it was written upon was not in existence until 1830, the process by which it was made not having been known until about that time.

HAPPY bridegroom: "More money, madam! more money! Have you forgotten that my money has bought everything you possess—the very dress you stand in?" Fair Bride: "No, sir! Nor have I forgotten that your money has bought what stands in it!"

A TITUSVILLE citizen was last year required to lower his sidewalk a foot to bring it to grade, and now is asked to raise it eighteen inches. He now proposes to raise it on poles thirty feet in the air, and save off as much as is required each season by the authorities.

THE California vintage of 1871 promises to be the best yet known in the history of that State. The quality of the grapes too is unsurpassed. It is estimated the product of wine in that State this year will not be less than 10,000,000 gallons.

A BITTER quarrel has been caused in a church in Maine by the practice of the members taking their dogs to church with them. The choir have refused to sing if the dogs are not excluded from the sanctuary.

A CORRESPONDENT of an agricultural paper asks: "Where can wool be profitably grown?" We are of the opinion that there is no place where it can more profitably be grown than on the back of a sheep.—Louisville Journal.

HE who saves in little things can be liberal in great ones.

THE TEMPERANCE CONVENTION

The editor of the Keystone Good Templar goes for the immaculate Joshua Owens, the boisterous Pennell Combe, and for certain Republican newspapers, in a very lively style. A day or two after the adjournment of the State Temperance Convention the following item appeared in the Harrisburg State Journal:

Members of the Democratic State Central Committee, it is said, were in Harrisburg on Wednesday, engineering the proceedings in the Temperance Convention. We do not know this to be true but give it as characteristic part of the Democratic intrigues to insure the defeat of the Republican party. Temperance men who are Republicans will appreciate this statement.

To which the Good Templar replies as follows:

That editor keeps on the safe side of this story by saying he does not know this to be true. But he knows that it is a lie [illegible] and he doubtless knows, too, that the only State Central Committee's influence that appeared in Harrisburg on that occasion was the appearance of a Republican party delegation of curbstone members of the convention, who came in the interest of that party and made themselves extremely ridiculous by first trying to get into the Convention which they could not do, and second by publishing a card seceding from a Convention of which they were not members.

It seems to us that the bogus bolters and their Radical editorial backers get decidedly the worst of it in the controversy which is now going on.—Lancaster Intelligencer.

AND now Mr Schurz—Mr Carl Schurz, Senator of the United States from Missouri, one of the great heroes of the war for the suppression of the rebellion, the special representative of the German American element, and the man who piloted this vast German element of the Western States into the Radical party and who was expected to keep them there—is the special subject of Radical abuse. A few days ago he made a speech to the Germans of Chicago in which he arraigned the Grant administration on many counts but most especially for the part took in the San Domingo job for its treatment of the Southern States and people for its manipulation of the Supreme Court, and many other wrongs leaving his German fellow citizens no alternative but that of casting their political fortunes with the Democracy. Formerly he was the main hope of the Radical party and their organs could not say enough in his praise. Now when this great German leader refuses to sing praise to their infamous usurption and wicked usurpations he is the worst man in the country, and the reign of Know Nothingism ought to be restored just for his accommodation. The Pittsburg Gazette is brutally annoyed, and says some terribly ugly things of him that he is a communist of a most dangerous type and wants to know what his position in that society formerly was. It is queer this inquiry did not suggest itself to the Gazette when Schurz was thought to be good enough to endorse their crimes.—Altoona Sun.

WESTERN PENNSYLVANIA promises this fall to give [illegible] its districts [illegible] and to give an old fashioned majority for the State ticket. The gallant Republicans of the eastern counties and Philadelphia in 1869 and 1870 saved the State from a Democratic majority, and we are glad to note the awakening in the west.—Philadelphia Press.

Don't be deluded, brother Forney, with Republican promises this year, they are not a particle more since than those made last year. In short they are gay deceivers. You had better get things fixed up in Philadelphia if you expect to make a respectable show this fall. Everything is at sixes and sevens out here and getting shakier. Would it not be well to get Evans, Gerry and Yerkes to take the stump this fall?—Pittsburg Post.

THE Republican press all over the country is constantly slandering the Democratic authorities of New York. There is no villainy they can imagine which they do not charge against it, for no reason save only that it is Democratic. The New York Evangelist, the leading organ of the Presbyterian Church in the United States, has struck a brave blow in defence of the calumniated authorities. It asserts, what is no doubt true, "that no city is more wisely or honestly governed than New York." This attack from so authentical a paper came like a bombshell in the Republican camp, and there has been obvious panic in the ranks ever since its publication.

MRS MARY CHASE BARNEY, widow of the late Commodore Barney, died at Washington on Sunday, the 13th, aged eighty-eight years. She was a daughter of Samuel Chase, of Maryland, a Judge of the Supreme Court and a signer of the Declaration of Independence, and was the last surviving child of any of the signers. It is a strange coincidence that the last surviving signer, Charles Carroll, of Carrollton, should have been of Maryland, and now the last surviving child of any signer is of Maryland. It is also a fact that the last surviving widow was of Maryland, who was Mrs Hannah K. Chase, widow of Samuel Chase. She died in 1848.

ONCE there was a Roman Emperor named Pertinax. When he was raised to the throne he resigned to his relatives his whole private fortune. His reason for doing this was that they might have no pretence to solicit favors at the expense of the State. Useless S. Grant has profited by this example in Roman history only he has turned over all the offices of the Republic to his relatives, that they may have no excuse to solicit favors at the expense of himself.

A FINE set of thieves these fellows are who are forever plunging the country into hot water with their tales of Ku-Klux outrages. In the old slave States occur 94 out of 201 revenue defalcations confessed by Secretary Boutwell, and of the 20 odd millions admitted by him as stolen $6,789,721 95 are to be put down to the score of these same persecuted patriots. A fine picture it makes of Southern outrages, these dry figures telling how government functionaries steal with both hands, bawling meanwhile at the top of their lungs "Ku-Klux!"

There are but two kinds of temporary insanity, and each has but a single symptom. The one was discovered by a coroner, the other by a lawyer. The one induces you to kill yourself when you are tired of life, the other persuades you to kill some one else when you are fatigued at seeing him about.

HAPPINESS and joy are inevitable consequences of virtuous actions, and these are the only substantial benefits of life. Ill-gotten pleasures are void of that vitality which is necessary to make them lasting.

AT a church collection for missions, the preacher feelingly said, "My good brethren, let me caution those of you who put in buttons not to break off the eye. It spoils them for use."

UNDER Republican rule the debt of Philadelphia has been run up to over fifty millions of dollars, and it is rapidly increasing.

CORONER,
Dr. J. L. BALHR, of Butler township.

A Radical paper calls Evans's embezzlement "a serious case of official presumption." Very serious.

There is a reported deficit, unaccounted for, in the Post Office Department, of [illegible].

A vote for a Republican ticket is a vote for [illegible], for a change of this government to a Despotism.

Bigamist Bowen, recently pardoned by Grant, is prominently before the South Carolina Radicals for the nomination for Governor of that State.

The Radical State Central Committee of New York have decided against the Greeley-Fenton organization in the city of New York. Will the latter submit?

The Cincinnati Times designates the speech of Carl Schurz as "the crazy onslaught of Schurz on the administration." The administration had better let the crazy man alone.

The N. Y. Evening Post, a leading Republican journal, sounds the alarm. It says: "The Democrats seem to have the best prospect of carrying Pennsylvania."

Examine the Registry Lists.—Let every Democrat examine the registry lists and see that not only his own name but those of his friends and neighbors are upon it.

Gen. McCook, the Democratic candidate for Governor of Ohio, was quite ill two weeks ago, but is recovering, and will soon take the stump again. He is running to win.

Hon. Lewis D. Campbell of Ohio has challenged Hon. John Sherman, of the same State, to a discussion of the political issues of the campaign. Sherman declines to face the music.

Hon. James R. Doolittle, one of the soundest thinkers and ablest speakers in the country, has been nominated for Governor by the Democrats of Wisconsin. He will make an active canvass of the State.

Hon. Jacob Turney, of Greensburg, has been nominated for Senator by the Democrats of the Westmoreland and Indiana district. He will give his Republican opponent, Harry White, a close chase, if he does not beat him.

At the congressional election in Kentucky in 1870 the Democratic majority was [illegible]. This year it will reach about [illegible] for Governor and nearly [illegible] for the other Democratic State officers. Where is the great Radical gain?

The scramble for office among the Radicals of Lancaster county promises to lead to a bolt so formidable as to promise to give the Democrats a fine opportunity of greatly reducing the opposition majority, if not entirely wiping it out.

The Philadelphia Press says the struggle among the Republicans over the Gubernatorial nomination in New Jersey is one of the bitterest in the political history of that State. Too bitter and too closely contested for the result to do anything else than injury to the party.

The Springfield Republican, the ablest leading newspaper in New England, beats the funeral march of Radicalism in advance of the final and decisive struggle of '72. Hear it!

The Republican party is marching to a "Big Pethel." "Too many Butlers, too many Simon Camerons, too many Mortons and Chandlers, too much stealing and land-grabbing, have killed it. It is dead before it goes into battle."

After Grant's soldiers purged the Convention at New Orleans of all his opponents, the business of the body was opened with prayer, in which the colored chaplain prayed fervently for a blessing upon the Convention and the success of the Republican party in Louisiana, and the re-election of General Grant. The connection between bayonets and piety in this case was clear and edifying.

New York, August 28.—A jury wholly composed of negroes was empanneled at Flushing on Saturday to try the case of an Irishman charged with assault. The prisoner protested so vehemently against being tried by negroes, while the court took the responsibility of discharging the jury and ordering a new panel.

Negroes in the jury-box! Who brought this blessing upon the country? The Republican leaders. Let them be remembered for it.

Dana's New York Sun, a leading Republican paper opposed to Grant's renomination, makes the following prediction:

If the Republicans are so weak and imprudent as to renominate Grant, the Democrats will nominate Hancock, and he will be elected. He will beat Grant in Pennsylvania by 40,000 majority. If Grant is not run, the Democrats will nominate a civilian—say William S. Groesbeck of Ohio—and there will be no military candidate.

The Senatorial Conferees met, pursuant to adjournment, at Hanover Junction on Monday last. Messrs. Sheets, Heltzel and Riely representing Adams, and Messrs. Helton, Shultz and Hendel York county. After two sessions, morning and afternoon, and failing to agree, the Conference adjourned to re-assemble at the same place on Thursday next.

We deem it proper at this stage only to repeat that, Adams having yielded her choice in the matter of the President Judgeship, York is expected to manifest the same magnanimous feeling by according to Adams the Senatorship. May we not look for such action—fair as it would be in every aspect—from the next Conference? Nothing can be gained by longer delay.

REPUBLICAN TICKET.

The Republicans of this county "went through the motions" of nominating a ticket on Monday last. The "show" was poorly attended, and "didn't pay expenses." From the twenty-five districts but thirty-seven delegates put in an appearance, and the outsiders hardly numbered a score.

The honors the Convention had to bestow were evidently considered empty, as the managers had difficulty in securing persons to represent several of the offices on the ticket. The only feature of the proceedings of a really interesting character was the choice of a Delegate to the State Convention. Over this there was quite a struggle, Dr. [illegible] Fahnestock carrying off the coveted honor.

The ticket set up by the managers and endorsed by the Convention is as follows: Assembly, J. McGinley, of Hamiltonban; Prothonotary, J. W. Wierman, Huntington; District Attorney, A. J. Cover, Gettysburg; Treasurer, Josiah Benner, Straban; Commissioner, Elias Mayer, Union; Director of the Poor, John F. Currens, Cumberland; Auditor, John Walton, Conowago; County Surveyor, [illegible] Davis, Huntington; Coroner, Dr. E. B. Elderdice, Franklin.

No nomination for President Judge or Senator were made, the managers hoping for "something to turn up."

Whilst the whole ticket will be acceptable to the negro allies of the Republican party, the reader cannot fail to see that for several of the offices [illegible] were taken to please them.

If the Democrats of the county make anything like an effort worthy of their good cause and the excellent ticket representing it, the Republican candidates will wish they had never heard of last Monday's Convention.

The people of this county cannot afford to allow the balance of power to drift into the hands of negroes. This they have said before, and they will say so in October again.

Mayor Hall of New York on Wednesday week sent to the Common Council and Board of Supervisors of that city the accounts of the city and county, respectively, for the years 1869 and 1870, and the first half of 1871. The documents are accompanied by messages in which the Mayor says that the items are transcripts, in chronological order, from the warrant books of the Department of Finance, and give the names of the payees and the subject matter for each payment. He requests that committees be appointed, one on behalf of the city and one on behalf of the county, to investigate these payments, and that a suitable committee of taxpayers be permitted to take part in the investigation. He offers an explanation of the creation of deferred [illegible] bonds concerning which so much has been said, and speaks of the "evident partisan conspiracy which has been formed against the city and county at home as well as abroad." No fairer proposal than that of Mayor Hall was ever made. The authorities of New York, instead of shrinking from any litigation, demand that the hands of the people, and the Mayor has put the accounts in such a shape that they can readily be examined and the vouchers tested. No more complete transcript of the doings of a corporation [illegible] were ever given to the public, and those who clamored for this exhibit must now either make good their assertions from the record, or confess they have grievously misled the public. [illegible] personal or political motives. Mr. Hall has responded fully to the demands made upon him, and the people of New York can now understand on which side lies the truth of the local controversy which for some time past has agitated the people of that city.

Evans and his loyal backers in this State, the leaders of the Radical party, have cheated the State out of $[illegible]. That fact is upon record. It cannot be disproved. "In regard to this Pittsburgh case," says the Washington Patriot, "a double fraud was committed. Many of these 'war claims' paid to Pennsylvania, as to other 'loyal' States, had no legal existence whatever. They had been disallowed by regular forms, rejected for want of any foundation, and so remained in the pigeon-holes of the accounting offices until the Ring was formed to carry them by partisan, personal and corrupt influences. That 'Ring' embraced officials of the State, leading politicians in Philadelphia, as well as bankers, editors, jobbers and clerks in the Treasury here. They are all well known, and can be named if necessary. In one or two cases officials threatened removal were employed by this powerful combination to compel acquiescence in fraudulent allowances. All the parties engaged in the conspiracy are prominent Radicals, some of them now holding high positions in this city and elsewhere."

General Longstreet, who was a graduate of West Point and a regular army officer at the opening of the war, enjoys one of the most lucrative offices in the gift of the administration. His good fortune is due to his relationship with Grant, and his treatment is a remarkable illustration of the capricious favoritism of the administration. No man inflicted deeper injury on the Union cause than Longstreet. At Gettysburg his corps sent havoc in the Union ranks. But he is now honored, petted and rewarded, while the base minions of the administration strike at Gen. McCandless, a Pennsylvanian, he who led his brigade into the thickest of the battle of Gettysburg, and by his gallantry contributed no mean share to that great victory. This contrast affords a fine illustration of the nature of Radicalism.

Guilty! Guilty!—Among all the high crimes and misdemeanors charged to the account of the Radical party, that of packing the Supreme Court for the purpose of obtaining favorable decisions is the most heinous, because it outrages [illegible] is made subservient to party ends, in attempts to sustain either in person or property. Of this crime they have been guilty time and again—decreasing or increasing the number of judges, as often as they wished to obtain a decision sanctioning their usurpations. Let the verdict of the people whose liberties are thus trifled with be "Guilty Guilty!"

The Bedford Gazette publishes the Adams county Democratic ticket, and comments thus:

Mr. Herter, the nominee for Representative, served in the last Legislature, winning the esteem of his associates in that body by his thorough integrity and fidelity to the interests of his constituents and the good of the Commonwealth. He is every worthy gentleman and deserves to be returned, as he will be by a largely increased majority. The whole ticket is an excellent one, and there can be no doubt that, unflinching Adams will do better this year than ever before for the Democratic cause.

Great Yield of Wheat.—Emanuel Kaufman, of Menno township, Mifflin county, Pa., threshed 166 bushels of clean wheat, the production of 4 acres and 11 perches, making 42¼ bushels per acre, and weighing 68 pounds to the bushel.

$363,523.85.

The State Treasury Robbed—A Huge Ring of Corrupt Officials—The "Swag" is Divided—They will not Disgorge.

In 1867 a ring of officials obtained authority from the Legislature for the appointment of a special agent to collect DISALLOWED AND SUSPENDED claims due the State from the General Government.

Governor Geary at once appointed G. O. Evans to do the work.

Within forty days he received $1,783,000 that belonged to the State. If he could accomplish this so easily, why could not the State Treasurer do the same?

At subsequent dates he received other sums until the whole amounted to nearly $3,600,000.

This money was paid mainly by drafts payable to the order of John W. Geary, Governor.

Of this vast sum $363,523.85 has never reached the treasury of the State, and is now in the possession of George O. Evans and the corrupt ring of State officials who run the Government and administer the finances of the State, and other prominent Republican politicians.

The project was framed by the men who control the Republican party of Pennsylvania.

They are the men who have robbed the treasury and the people.

Why did they not expose this embezzlement long since?

Why did the treasury officials fail to collect this money for nearly four years?

Why do they neglect now to prosecute the offenders if they are not their accomplices?

Why do they seek to remove from his office the man who has exposed the fraud?

Why are they so anxious to elect an Auditor General who will be their own creature?

Let the candid Republican read the facts as shown up by the Philadelphia Bulletin, a Republican paper, and determine for himself the truth or falsity of the charges we make.

THE LAST MOVE IN EVANS'S CASE.

Auditor General Hartranft and State Treasurer Mackey have certified to the office of the Attorney General that Special Agent Evans is a defaulter to the Commonwealth in the sum of $[illegible] with interest. On Attorney General F. C. Brewster now devolves the duty of prosecuting the embezzler. His action will be awaited with much interest and many misgivings.

Since it is manifest that Evans is under the protection of Governor Geary, who is deeply involved with him in this transaction, an apparent conflict has arisen between different branches of the State Government. Therefore, the true course of Messrs. Hartranft and Mackey would have been to commence the prosecution of Evans at once, and procure his arrest on the charge of embezzlement. But they have preferred to turn the whole matter over to the Attorney General, which is exactly in accordance with the programme of Governor Geary himself. We presume that another loud call will be made on the public to admire the wonderful promptness of these officials. So far from displaying earnestness and sincerity in the discharge of their duties, they are seeking to evade responsibility, and to give the case in charge of the Governor, who is himself deeply implicated. They are aware of a certain kind of courage and audacity possessed by Brewster in braving public opinion, and these qualities are to be brought into requisition to prevent or to postpone exposure and its consequences until after the October election. The determination of the Radical leaders to stifle investigation is foreshadowed in this action of Messrs. Mackey and Hartranft. These faithful public servants cannot be sufficiently admired for their promptness and zeal.—Harrisburg Patriot.

On the information of State Treasurer Mackey, made before Alderman Kerr, of this city, on Saturday last, a warrant was issued for the arrest of George O. Evans, charging him with embezzlement.

The warrant was sent to Sheriff Leeds of Philadelphia, and we presume will have been executed before this reaches our readers.

We clip the above from the Daily Telegraph of the 28th inst., and pronounce the assertion that State Treasurer Mackey charged Agent George O. Evans with embezzlement to be false. The drift of the Telegraph is to impress the public with the belief that a criminal suit was brought against Evans by Mackey. No such thing has occurred, and we defy the Telegraph to prove that Mackey appeared before Alderman Kepner, "charging him (Evans) with embezzlement." After this great labor of the mountain it has brought forth a mouse even smaller than a mouse.—Harrisburg Patriot.

Union and Harmony.—Now that the nominations are made and an excellent ticket is inscribed upon the Democratic Banner, let every faithful and sincere Democrat at once bend his energies to urge UNION and HARMONY as the crowning essential of success! With union and good will prevailing in our ranks we can carry the State—if we carry the State this year we can carry the Nation next year. All depends upon union now, in order that all effort may be concentrated against the common foe. Whoever disturbs the harmony of the party now, directly aids the Radicals! Let every Democrat therefore mediate union and harmony as the best and most patriotic act he can do for his country, his party and himself. Arouse to action, prepare for victory—secure every vote possible and be sure to bring out every voter. From this time until the election let every Democrat consider himself a committee of vigilance specially appointed to promote the best interests of his country and his party. Let all strife and bickering, if any exist, be promptly discountenanced and frowned down. We appeal to every Democrat at this time to yield everything to the public good.—Columbian.

The Cincinnati Volksfreund contains an interesting letter from Milwaukee, in which the writer says that the tariff platforms of Ohio and Iowa have frightened off many people from the Radical party, that the liberal tendency of the Democratic party pleases many people in that section, especially of the Germans, who are tired of the corruption and tyranny exercised over the Southern States, that the Republicans in Wisconsin are quarreling over offices and official patronage, and that if the Democracy, at the next Convention, nominate a good ticket, they may count with certainty on success.

In Secretary Boutwell's list of balances due from collectors of Internal Revenue we find the name of John W. Douglass, of the Nineteenth Pennsylvania District, and the amount of $2,777.15 charged against him. Douglass was appointed a few days ago by Useless to take Pleasanton's place.

The Democrats of Montgomery county have declared General Hancock to be their choice for the Presidency. The feeling seems to be running very strongly in that direction, and the probabilities are that the Pennsylvania delegation will be a unit.

Local Matters.

TOWN, COUNTY AND SURROUNDING COUNTIES.

The pound-and-a-half baby at Hanover died last week.

A fine residence has been erected by Mr. Daniel Ehrehart in New Oxford.

Dr. S. D. Barrick died at Sabillasville, Frederick county, on the 22d ult., in his 47th year.

Postmaster.—Adam H. Detrick has been appointed Postmaster at Square Corner, vice [illegible] Hagarman, resigned.

Sheriff Kerns, on Monday, took [illegible], alias Rosencrantz, to the Penitentiary, and young Kipp to the House of Refuge.

Ground was broken on the Emmitsburg branch Railroad on the 23d ult. The work of grading has been entered upon by Mr. Donoghue with a good force.

Sales.—John Statzel has sold his house and lot in East Berlin, to Jacob Musser, for $2,000. Mr. Musser selling Statzel twelve acres with improvements, in Huntington township, for $1,100.

Accidentally Shot.—David Bahuman, of Harvey's District, Md., whilst out shooting squirrels, on Wednesday of last week, had his left arm painfully injured by the accidental discharge of his gun.

Base Ball.—A game of Base ball at Chambersburg, on Thursday of last week, between the Athletics of that place and the Gettysburg Club, resulted in a score of 63 for Gettysburg to 62 for Chambersburg.

Passenger cars are brought to run now running regularly to and from Emeystown. A temporary engine house will be put up there. Rails are being laid from the Western Maryland Railroad at York Road towards Emeystown.

Accident.—Mr. Wm. Sheely was severely injured, at Littlestown, on Wednesday week, by falling between a car and the platform of the station house, whilst assisting to unload a market car. Fortunately no bones were broken.

Pic Nics.—The Little Round-Top Pic Nic will come off to-morrow (Saturday).

Another Marsh Creek Pic Nic is announced for Saturday of next week. The former interfered somewhat with the last, but it was nevertheless a pleasant affair.

Escape of a Convict.—Henry Kittler, a noted horse thief, broke jail at York on Thursday night by cutting through the prison wall. He is five feet seven inches high, a black complexion. One hundred dollars is offered for his arrest.

Post Office.—Application has been made to the Postmaster General for the establishment of a new Post Office, to be called Kingsdale, and located in Germany township, on the new railroad, about three miles from Littlestown, with William H. Harner as Postmaster.

Survey.—The engineers of the South Mountain Railroad reached the Chambersburg and Gettysburg turnpike on Monday week, and reported an excellent line. They were running in the direction of Waynesboro', which place they probably reached by Thursday.

The rails are now laid on the Western Maryland Railroad two miles beyond Sabillasville, and the cars run occasionally to that point. There has been a "hitch" in the grading of the Summit section between the contractor and his men about pay, and Mr. Harmon, one of the Washington County Directors, it is said, stepped forth, contracted and put the work through forthwith.

The unveiling of the Soldiers' Monument at Carlisle, on the 19th ult., was an imposing affair. Soldiers, Masons, Odd Fellows, Knights of Pythias, Red Men and Patrons of Music made up the procession. Gen. Lemuel Todd, chief marshal; Maj. Gen. Heintzelman was present and directed the unveiling. Rev. Dr. Swartz offered prayer, and Rev. Dr. Davidson delivered the address.

Panic.—On Friday night last the dancing platform at the Caledonia Springs was destroyed by fire. A party of young folks had been having a dance there that evening and had gone but a short distance on their way home when their attention was attracted by a bright light in the direction of the picnic grounds. They went back and found the platform in flames. It is supposed to have taken fire from some of the candles or sparks dropped on the leaves.—Star.

Damage Claims.—Judge Fisher has appointed J. C. Neely and E. W. Stahle, Esqs., Commissioners to adjudicate the claims for losses by rebel raids in Adams county under the Act passed last session. Governor Geary has appointed Mr. Jeremiah Culp, Clerk. He has also appointed Wm. Hay, Esq., of York Commissioner for this county, and D. Wills, Esq., of Gettysburg, for York county. We presume the Commissioners will enter upon their work at an early day—giving due notice of time and place of course.

Confederate Dead.—We are informed that all the dead on the Gettysburg Battle-field belonging to North and South Carolina and portions of those of other States, have been exhumed and sent home—the work being superintended by Dr. Rufus Weaver, of this place, at the instance of the Ladies' Memorial Association organized in the South for this purpose. On the 12th ult. the remains of thirty-two Confederate soldiers were interred at Savannah, Georgia, and on Friday last one hundred and twenty-three at Raleigh, North Carolina, with religious exercises.

Teachers.—The following Teachers have been employed in Latimore township: Brigtown, Eva Shelleur; Bermudian Church, Jennie Bitner; Wolford's, Lloyd G. Vanscoyc; State Road, Emma Guest; [illegible]; Samuel T. Kinsely; Upper, Ira D. Vanscoyc; Swamp, Dolly Lasby; one school no choice. Term 4 months—salary $[illegible].

Oxford.—Oxford High School, Silas C. [illegible]; Oxford Primary, Kate O. Maley; Valley, Blanche L. Cook. Term, 6 months—salaries $45, $37 and $30 respectively.

Conowago.—Brushtown, [illegible]; Schwartz's, Samuel A. Weitz; McSherrystown, Mary J. Eckert. Term, 5 months—salary $[illegible].

Court Cases Continued.—Commonwealth vs. David Clapsaddle—Indictment, Arson for firing the barn of John Spangler on the 7th of July, 1870. The case was given to the jury at 9½ o'clock on Saturday evening and they returned into Court at 8 on Sunday morning, with a verdict of not guilty. The Court, it being unlawful to take a recognizance on Sunday, reconvened on Monday morning at 6 o'clock, when David Clapsaddle gave security in $2,000 for his appearance at the November Sessions to answer the charge of firing a barn belonging to John Spangler on the 19th of March, 1870.

Com. vs. John Hook.—Surety of the peace, on oath of John Waltman. After hearing, the case was dismissed, and the defendant directed to pay the costs of prosecution.

Com. vs. Henry Kappes.—Stealing a knife from Samuel Plank. Defendant plead guilty and was directed to be taken to the House of Refuge, at Philadelphia. His age is about 11 years.

Com. vs. John Donohue.—Stealing between sixty and seventy dollars from S. G. Cook, of Gettysburg. Fourteen jurors were empannelled (to provide against accident) and the trial was postponed until the 2d of October, the time fixed for Argument Court.

Just received, at Cook's, a fine lot of Mackerel, Herring and Shad at extremely low prices. Also, Glass fruit jars, very cheap. tf

Serenade at Mount Rock.—We are informed that a pleasant affair took place at Mount Rock, this county, on Thursday evening, the 24th ult. That enterprising and universally popular gentleman, J. J. Smith, Esq., the Democratic candidate for County Commissioner, was serenaded by the Hanover Brass Band. The delightful music called together quite a number of the citizens of Mount Rock and surrounding localities. After several pieces had been played, Mr. Smith invited the gentlemen composing the Band and all others present to the discussion of divers refreshments. Full justice having been done the good things proffered, the Band performed again in fine style, when Mr. Smith was called out. In a few appropriate words he thanked the gentlemen composing the Band for the evidence they had given of their regard for him, and assured them that he sincerely appreciated the honor conferred. He then begged leave to introduce Edward S. Keely, Esq., who was cordially received. Mr. K. began by saying that he found Mr. Smith was not unlike a well known General who had reached the high station in the gift of the people by holding his tongue, and throwing all the talking and the responsibility on to his supporters. Mr. K. went on to thank the gentlemen of the Band for the delightful entertainment they had furnished. He said further, that, although this was anything but a political gathering, and that he was fully aware that the crowd present were of all shades of political opinion, at the same time he thought it not inappropriate to advert to the fact that Mr. Smith was a candidate for Commissioner, and without considering the question of party, but on more personal grounds, he was eminently deserving of the support of all men who were heartily in favor of an honest, sound and honest policy in the administration of the affairs of this county. After paying a well deserved tribute to the many good qualities of head and heart which have won for Mr. Smith the respect and regard of men of all parties, Mr. Keely retired from the stand, and the crowd dispersed in good humor.

Ladies and Young Men as Successful Business Men.—Every Model Public on Broadway, New York, has written on its corner stone erected by [illegible]. The only school in America especially devoted to training Young Men and Ladies for a successful start in life and for actual prosperous citizens and that assists its graduates to positions, is Eastman Business University. It is the oldest and only practical commercial College in the country, and the largest school in the United States, having students from all parts of the Union. The total expenses are only $125. Its Catalogue shows 1000 graduates in successful business which can be obtained by addressing the president and founder, H. G. Eastman, LL.D., Poughkeepsie, N. Y. It

Adams County Railroad.—The Legislature granted a charter some years ago for the construction of a railroad from York Springs to intersect either the Northern Central or Cumberland Valley railroad, to be known as the Adams County railroad. Experimental lines were run at the time, but the matter was come to nothing. The project has been revived, and the Cumberland Valley railroad company have made a proposition to furnish the superstructure if a sufficient amount of stock can be raised to grade the road.—Mining Register.

A Really Good Invention.—It is very seldom we commend to the public in this way any of the improvements and inventions, which belong more properly to our advertising columns. What we have to commend, however, so deeply concerns the health, happiness and comfort of our American women, that we make no pledge for giving it our most unqualified approval and endorsement. The invention referred to is the great American Washer, which is destined to become a favorite in every household. It is the smallest, the most compact, most portable, most easily operated, and is not at all liable to get out of order. Its construction is so simple, that even a child can be successfully taught to operate it in an incredibly short space of time.

Some of the most prominent and desirable features in this "washer," which are a marvel in itself, are worthy of special commendation. They are these: It is always ready for use, there is no adjusting, no screws to confuse and annoy, and no delay whatever in adapting it. Everything seems to have been done that ingenuity could suggest, and in our estimation it is simply a perfect, sensible and beautiful invention, and only requires to be seen to be appreciated, which cannot fail to place it at the head of its kind.—Philadelphia Weekly Press.

SUNDAY SCHOOL PIC NIC.

On Sunday, Aug. 20th, the Union Sunday School of New Chester, in connection with the Sunday School at the Pines, spent a very pleasant day in the grove of Mr. H. J. Myers. The schools marched in procession to the grove, where Lass' Bands and the ladies had made every preparation necessary for the comfort of those expected.

The day was beautiful and everything bid fair to make the occasion one of great interest. The arrangement of the speakers' stand suggested to the christian's mind the churchly idea and reminded one of the Pulpit and Altar in the Sanctuary of the Lord. It was neatly and most tastefully decorated with festoons of evergreens, wreaths, hanging baskets and the choicest flowers of the season, all of which was calculated to inspire the soul with holy devotion, as well as enkindle then closer and joy in every heart. The whole arrangement reflected considerable credit upon the committee and manifested a devoted interest to the cause in which they are engaged. The exercises were opened with singing by the school, and prayer by Rev. Honeycutt, followed by an address by Rev. W. P. P. Davis, who confined himself principally to the importance of Sunday School men affording such festive occasions for the encouragement of the children and the upholding of the Sunday School cause, and the happy results growing out of such religious services.

The next address was by Rev. Honeycutt, who in a neat and befitting manner, reminded the children and all present of the importance of rendering suitable praise to God for the blessings vouchsafed unto us in the past and on this occasion. Mr. [illegible] then in an appropriate speech, presented Dr. McIlhenny, their worthy Superintendent, in behalf of the Bible Class, a neat and beautiful copy of the Holy Bible. The Doctor responded in a few well timed and appropriate remarks, assuring his class that he thankfully accepted their handsome gift and fully appreciated this expression of their respect and love toward him. Other miscellaneous presentations took place in the way of cakes, which had not been previously arranged on the programme, but were nevertheless equally appreciated, especially by the recipients from whom the kind donors receive many thanks. The last but not least of the morning exercises, was announced by a call to a most sumptuous dinner prepared by the good people of New Chester and vicinity for the occasion, for which the ladies of that community have a well merited reputation. After all had enjoyed the dinner to the satisfaction of their respective appetites, a few hours were spent in recreation and innocent amusement. When another address was delivered by Mr. Lills, of York, who congratulated the audience on the pleasures of the day, expressing words of cheer and encouragement and urging them to be faithful to the cause in which they are engaged. After singing and prayer, the exercises were closed by the benediction. Thus ended the first Sunday School Pic Nic of the Union Schools of New Chester. It was a complete success, and a day spent pleasantly and profitably, and long to be remembered. Nothing occurred to mar the happiness of any, but all enjoyed themselves greatly. May the Great Head of the Church abundantly bless the Sunday Schools of New Chester and vicinity, and make them instruments for the accomplishment of much good. Amen. D.

EXPLOSION DISASTER IN THE [illegible].

Explosion of a Steamboat [illegible]—Seventy Men, Women and Children Killed.—The Mobile [illegible] gives the following account of [a] terrible boiler explosion on Sunday [illegible].

The steamer Ocean Wave, a pleasure boat, left this city on [illegible] morning with about 300 persons on board for an excursion to Fish [River], about 20 miles from the city. On her return trip she stopped at Point [Clear], reaching there about 5 P. M. [illegible] was made fast and the band [illegible] of the passengers went ashore [illegible] remaining there for half an hour [illegible] whistle was blown and the passengers had just got aboard when the boiler exploded with great force. Following [a] rumbling, hissing sound, fragments of timber and metal flew in every direction. The forward part of the boat, with the cabin, was carried completely away, the chimney falling back toward the rear of the boat, crushing the upper cabin, and the boat immediately sunk, with her bows submerged.

THE KILLED AND INJURED.

About sixty or seventy persons were killed and injured by the explosion [illegible]. Of the bodies of 10 dead brought [illegible] among the number have been [illegible] and 28 wounded have been brought to the city, and one of the number, [a] little girl, has since died. The [scene] was appalling, terrific, heartrending, and while scenes of grief have seldom been witnessed. The frantic cries of the survivors and the lamentations of [those who] lost wives, children, parents, sisters [and] brothers were agonizing to all who [had] human sympathy. Many of the [illegible] gets were [illegible].

LITTLE CHILDREN

and little hats and bonnets came [floating] [illegible] of the little victims borne [illegible] waves. The captain, Wm. [illegible] swam for some time with both [illegible] ken. A boat reached him just [illegible] and he went down. The two [illegible] were killed. Only three others [illegible]. It is impossible to give a correct [estimate] of the total loss of life [illegible]. It is supposed that [illegible] persons are still buried in the debris of the wreck at the bottom of the bay.

APPALLING RAILROAD DISASTER.

Boston, August [illegible].—A [frightful] accident occurred to-night on the [Eastern] Railroad at Revere, seven miles [from] Boston. The accommodation [train] started behind time, and while standing at the station the Portland [illegible] express struck and telescoped it, killing twenty-one passengers outright [illegible] whom three were women, and wounding some forty or fifty more. The [illegible] took fire and two or three were consumed. Most of the wounded were scalded and their limbs fractured.

Later.—The deaths amount to [thirty]-two.

Philadelphia, August 26, 1871.—A terrible accident occurred at West [Chester], Pa., on the Philadelphia and [illegible] road to-day. A passenger and a [illegible] train collided, killing Conductor [illegible], Engineer McCormick, a fireman [illegible] unknown, and Roe Brown of [illegible] ven; Mr. Ward of Bridgeport and [illegible] Rubright of St. Mary's.

Another Kerosene Disaster.—[illegible] Hawkins, Schuylkill [illegible] called upon to add two more [illegible] haps three, to the long list of victims [to] the careless handling of Kerosene. [illegible] Brown, residing along the [illegible] few miles west of this city, until [illegible] day last, was blest with a happy [home]. On that fatal evening Mr. Brown [had] just retired to bed, his wife undertook to replenish the lamp which one of [the] wick was burning, and the old [illegible] was repeated. An explosion was the result, scattering the fluid over her, and a younger sister, which of course was all aflame. Mrs. Brown immediately ran up stairs to her husband, [trying] to [illegible] everything with which [she] came in contact. In trying to save [her] wife Mr. Brown was so severely burned that no hope is entertained of his recovery. The screams of the victims brought the cries of the neighbors [illegible] assistance came as soon as possible. It was too late except to save the [illegible]. The little girl appeared to be [illegible] mortal suffering, at least she [illegible] planed but half, while the [illegible] Mrs. Brown was [illegible] beyond all attempts at description. But it was short duration. A few minutes [illegible] were, and her and her sister passed [illegible] life of that God for whose mercy they plead with such fearful and earnest appeals.—Miners' Sun.

—Mr. John Boone, an old and [illegible] citizen of Wayne bore [illegible] died one day last week.

Affairs in France are becoming stormy again. The Provisional Assembly is full of conflicting elements.

—A shocking event has occurred [in] the town of Bologna, Italy. A church was struck by lightning, and 132 persons were killed or injured.

—The Asiatic cholera is at Liverpool.

The American Washer!

PRICE, $5.50.

The American Washer Saves Money, Time and Drudgery.

THE Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency and Clean Clothing Sure. In calling public attention to this little machine, a few of the invaluable qualities (not possessed by any other washing machine yet invented,) are here enumerated.

It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to annoy, no delay in adapting. It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and better quality than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blanket.—Three shirts at a time, washing thoroughly! In a word, the ablution of any fabric from a Quilt to a Lace Curtain or Cambric Handkerchief, are equally within the capacity of this LITTLE GEM! It can be fastened to any tub and taken off at will.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleansing efficacy and utility are banished, and the doubter and detractor at once become the fast friends of the machine.

We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines which have signally failed to accomplish the object promised in prominent and loud sounding advertisements.

It is as perfect for washing as a wringer is for wringing. The price, another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

$5.50.

All that is asked for this GREAT LABOR SAVER is a fair trial. We guarantee each machine to do its work perfectly.

PUBLIC SALE OF VALUABLE REAL AND PERSONAL ESTATE.

ON SATURDAY, the 30th of SEPTEMBER next, the undersigned, Assignees of JOHN CHAMBERLAIN and WIFE, will sell at Public Sale on the premises the following valuable Real and Personal Property, viz:

THE MANSION FARM, situate in Franklin township, Adams county, Pa., about half a mile west of the public road leading from Cashtown to Fairfield, and about 4 miles from the former place, containing 162 ACRES, more or less, about 105 acres of which is under cultivation, the balance in Timber. This farm is very productive, nearly all of it having been limed and is adapted to the production of all kinds of grain. The soil is never seriously affected either by drouth or wet weather. There is a full proportion of Meadow and good water in all of the fields excepting one. There are two or three very good sites on this farm for the erection of fish ponds and raising fish. The improvements are a large Two story STONE HOUSE and a Bank Barn, (45 by 80 feet,) a Frame Tenant House suitable for a Store, Blacksmith Shop, Smoke House, Stone Spring House, with a never-failing spring of the best soft water, Bath House, Hog Pen, with all other out-buildings necessary. There is as fine a variety of Fruit of all kinds as can be found in the neighborhood, nearly all the trees being young and thrifty. The location is very desirable, being convenient to Churches, Mills and Schools. Any person wishing a pleasant home will do well to attend this sale. Also a piece of MOUNTAIN LAND adjoining the above farm, in same township, containing 41 ACRES of thrifty young Chestnut Timber. This tract will be sold in two or three equal lots. Also, a valuable SAW MILL AND TANNERY, with 121 ACRES more or less of Timber land adjoining thereon in two tracts. The Saw Mill is turned with a large Over-shot Water wheel, and sufficient water-power to run the greater part of the year. The TANNERY consists of a large Frame Tan shop, in which there is a Bark Mill, Leather Rollers and Hide Breakers, all driven by an Over-shot Water wheel 11 feet high and sufficient water-power to run the entire year, 2 Pools and 1 Bait. The yard contains 11 Vats, 8 Leeches and 2 Limes. There is a Bark-shed 75 feet long, which will hold 28 cords of Bark. Also one and-a-half story Frame House for the Saw Mill. With the Tannery a Two story Log Weatherboarded House, Frame Stable, and other necessary out-buildings. A good Spring of water near the houses and a thrifty young Apple Orchard. This property is in the midst of a bark country and has every advantage in that respect. The Timber land will be sold in two or three lots, after running off a portion with the buildings. The Saw Mill, Tannery, House and a few acres of land will be sold separately, and the same with the Tannery, or both together as may suit purchasers. Also the following Personal Property, viz: 2 WORK HORSES, 2 Broad-tread Wagons, 2 Log Wagons, 1 Spring Wagon, Sleigh, large English Wagon Bed, Threshing Machine, Clover Huller, Wind Mill, Hay Rake, Cutting Box, Wood Ladders, Hay Fork, Plank for wagon bed, 2 Two horse Ploughs, Hillside Plough, Double and Single Shovel Ploughs, 2 Wagon Harness, such as 2 sets Breechbands, 2 sets Front Gears, Wagon Saddle, Bridles, Halters, Chains of all kinds, Rough-lock, Ice Cutter, Double and Single Trees, Forks, Rakes, Grain Sheaves, Shelving, Drawers and Counters for Store Room, set of Cleveland "Electro Magnetic Lightning Rods, (new and complete,) for a large barn or house, ready for putting up, Shingle Machine and Jointer, Lath Saw, Patent Saw gummer, Corn and Oats by the bushel, lot of Blacksmith Tools, Cider Barrels, Sausage Cutter, 2 Grindstones, Jack Arter and 2 Levers, a large lot of Lumber of different kinds, lot of Walnut Posts, lot of Locust Posts, 1 Ten-plate Stoves, Parlor Stove, Settee, and many other articles too numerous to mention.

THE BEST FERTILIZER!

FARMERS, TRY IT!

E. Frank Coe's

AMMONIATED

Bone Super-Phosphate.

THIS fertilizer has been in use THIRTEEN YEARS, and has steadily increased in reputation and sale each succeeding year. Two hundred and fifty pounds per acre insures a good crop on poor soil, and will permanently improve the ground at the same time. It is in fine condition for drilling, and put up in bags of 167 lbs. and barrels of about 250 lbs. each. No charge for packages.

It is made from

ANIMAL BONE,

dissolved with a plentiful supply of Sulphuric Acid, having added Pure Fish Guano to furnish the needed Ammonia. There is no intermixture of sand, pound stock or other matter to add weight at the expense of the fertilizing principle. The ingredients are gotten together to stimulate the growing plant and furnish vegetation with true plant food.

This phosphate has been thoroughly tested with other popular commercial fertilizers on

Wheat, Rye, Corn, Oats, Tobacco, &c.,

and the results have invariably proven its high and incomparable value.

THERE IS NO RISK IN BUYING IT.

E. Frank Coe's Super Phosphate contains of Phosphoric Acid 11 [illegible] per cent. of which [illegible] per cent. is soluble, thus furnishing A LARGER PROPORTION OF PLANT FOOD THAN ANY OTHER SUPER PHOSPHATE MANUFACTURED.

THE FARM AND HOUSE.

SHOULD LAND LIE LONG UNDER GRASS.

In a system of farming which makes grain and root crops the main products, in which the land is devoted to tillage, and pastures and meadows are secondary in importance, I think experiment proves it unwise to let a field remain longer than two years under grass. If the object sought, by letting the field remain in grass, be to fertilize it thereby, two seasons are enough to get the best effects from clover, which, of course, should be the crop used. If the field is allowed to be under grass a long time, a turf of June grass, white clover, red top, or timothy is formed, the soil is compacted and the roots of the grasses cause a great deal of extra labor in tilling a hoed crop and often are not killed the first season, but grow and damage the succeeding grain crop. Wire worms and grubs are more apt to work in a corn-crop that is planted on a stiff sod, than on a tender, young clover lay.

I have observed that those farmers raise the best crops who do not let their fields lie more than two years under clover. Then manure and plant corn, sow barley or oats the next year, then seed with clover again and Summer fallow for wheat.

Later years we have no more trouble from the corn grub than formerly, we think so at least, though this enemy to corn was familiar to the Indians. Where there is danger from this source, it is safer to Summer fallow first, then plant corn, and sow Spring-grain and seed down. I do not mean to be understood as objecting to an old sod for a corn crop, but that its tough grass roots often are not killed by the cultivation given the corn, and live over and damage the grain following; and that wire worms and grubs are apt to work more injury in the old sod than a new one.

Mowing a good field for tillage, several seasons in succession, injures it for bearing grain crops, it is nearly as bad as other cropping. A field that lies two years under clover should have one crop of the clover pastured, or else permitted to go down on the field. A crop of clover hay followed in one of seed, taken from a field, runs it much as any grain crop.—*Rural Home.*

TO STEW TOMATOES.—Pour boiling water over fair and fully ripe tomatoes, that you may peel them quickly; let the water remain only long enough to start the skin. When peeled, cut into an earthen "pipkin," or a porcelain-lined kettle, as tin or iron turns them dark, and gives them a bad taste. If onions are agreeable, cut one small one in with the tomatoes. Cover closely, and set where they will gently simmer, but not boil hard. Stir them occasionally to prevent burning, and when they have cooked two hours, add pepper and salt to suit your taste, and to a quart of tomatoes add a teaspoonful and a half of sugar and two and a half even spoonfuls of bread or cracker crumbs. After the crumbs are added, stir often or they will stick to the bottom of the dish and soon burn. Twenty minutes before dinner beat two eggs, or if you have more than a quart of tomatoes, increase the number in proportion to two eggs to a quart; stir briskly and often after the eggs are added, and serve hot. If possible, the tomatoes should be skinned and set on the back part of the stove before breakfast, as the longer they simmer the better they will be. Three hours' slow cooking, at least—*more is better.* If prepared according to rule, they are thought very nice by tomato lovers, and are better warmed over the second day than the first.

TROUBLE IN CHURNING.—A lady correspondent of the *Prairie Farmer* says:

"I have found that the cause of the cream beating to froth sometimes, in churning, is carbonic acid gas, which is heavier than atmospheric air, collecting in cellars or where milk is kept. If somehow, by uniting with cream in a small portion, causes it to froth and be hard to churn, and the butter be very poor when done, and where there is much of it in the cream, it will not churn butter at all. The remedy I have found that will entirely prevent it, is quicklime used freely where the milk is kept, either in lime water, or the lime strewed in the cellar.—After the gas is once removed, it can be prevented by a vessel of lime kept in the cellar and renewed when necessary, and you will have no trouble in churning Winter or Summer.

THE LAW AND MANNERS ON THE ROAD.—It is commonly said that every one has a right to half the road. When two meet on the road, their rights are equal, so the law directs each to turn to the right, leaving six to eight feet between teams in passing, if the road will permit. Courtesy should be shown heavy teams, to give them as little trouble in passing as possible, and the same courtesy should always be returned by those who have been favored.

A REMINDER

To Debilitated Persons,

To Dyspeptics,

To Sufferers from Liver Complaint,

To those having no Appetite,

To those with broken down Constitutions

To Nervous People,

To Children Wasting Away,

To any with debilitated Digestive Organs.

Or suffering with any of the following Symptoms, which indicate Disordered Liver or Stomach,

such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

HOOFLAND'S GERMAN BITTERS,

A Bitters without Alcohol or Spirits of any kind,

Is different from all others. It is composed of the pure juices, or *Vital Principle of Roots, Herbs, and Barks,* or as medicinally termed Extracts, the worthless or inert portions of the ingredients not being used. Therefore in one Bottle of this Bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use; they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

HOOFLAND'S GERMAN TONIC,

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is $1 50 per Bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients; and they who expect to obtain a cheap compound, and be benefited by it, will most certainly be cheated.

THE WHOLE SUPREME COURT OF PENNSYLVANIA

SPEAK FOR THESE REMEDIES.

Who would ask for a more Dignified and Stronger Testimony?

HON. GEORGE W. WOODWARD, formerly Chief Justice of the Supreme Court of Pennsylvania, at present Member of Congress from Pennsylvania, writes:
PHILADELPHIA, March 16th, 1867.
I find "Hoofland's German Bitters" is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.
Yours, truly, GEO. W. WOODWARD.

HON. JAMES THOMPSON, Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1867.
I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

HON. GEORGE SHARSWOOD, Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, June 1, 1868.
I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly.
GEORGE SHARSWOOD.

HON. WM. F. ROGERS, Mayor of the City of Buffalo, N. Y.
MAYOR'S OFFICE, Buffalo, June 22d, 1869.
I have used "Hoofland's German Bitters and Tonic" in my family during the past year, and can recommend them as an excellent tonic, imparting tone and vigor to the system. Their use has been productive of decidedly beneficial effects.
WM. F. ROGERS.

HON. JAMES M. WOOD, Ex-Mayor of Williamsport, Pa.
I take great pleasure in recommending "Hoofland's German Tonic" to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so badly it was impossible to keep any food on my stomach, and I became so weak as not to be able to walk half a mile. Two bottles of Tonic effected a perfect cure.
JAMES M. WOOD.

DR. HOOFLAND'S

PODOPHYLLIN,

OR

Substitute for Mercury Pills.
TWO PILLS A DOSE.

The most Powerful, Yet Innocent, Vegetable Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principal ingredient is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleaning it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases, in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER FAIL.

In cases of Liver Complaint, Dyspepsia and extreme costiveness, Dr. Hoofland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the Nerves, REGULATES the Liver, and gives strength, energy and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain its hold, or even assail you.

Recollect that it is DR. HOOFLAND'S GERMAN Remedies that are so universally used and highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by Express to any locality, upon application at the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, 631 Arch Street, Philadelphia.

Ayer's

HAIR VIGOR,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Made of *Poor Rum, Whiskey, Proof Spirits and Refuse Liquors* doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the *Great Blood Purifier and a Life Giving Principle,* a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided the bones are not destroyed by mineral poison or other means and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. *Such Diseases* are caused by *Vitiated Blood* which is generally produced by derangement of the Digestive Organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Bilious Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Pearl, Alabama, Mobile, Savannah, Roanoke, James and many others with their vast tributaries, during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S Vinegar Bitters, as they will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs. The universal popularity of this valuable remedy in regions subject to miasmatic influences, is sufficient evidence of its power as a remedy in such cases.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the body will follow.

Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

The Cucumber Wood

PUMP!!

One dozen reasons why this is the best Pump manufactured in America for

WELLS AND CISTERNS.

1. It is simple. 2. It is reliable. 3. It is Durable. 4. It Works very Easily. 5. It throws Water rapidly. 6. It is all Wood. 7. The Wood is Tasteless. 8. It does not Crack in the Sun. 9. It is not liable to get out of order. 10. Should any repairs be necessary in time, they can easily be made by any person. 11. It will not freeze. 12. It is cheaper than any other reliable Pump manufactured.

BALDING'S DOUBLE-ACTING

GLASS CYLINDER

FORCE PUMP.

Having purchased the exclusive right to sell BALDING'S PATENT SUBMERGE DOUBLE ACTING FORCE & LIFT PUMP, with Glass Chambers, for the county of Adams, in the State of Pennsylvania, I would respectfully call the attention of the public to the following advantages:
1st. Its durability, having a glass cylinder in which all the work is performed, and having no rust, and little or no friction.
2d. Its economy, costing less than any other now in use.
3d. It cannot freeze, because when the pump is not being worked the water falls to its level in the well or cistern.
4th. The freshness of the water is always insured, coming as it does from the bottom of the well; being unlike all other pumps, where the water stands in the stock and hence must taste more or less. While it answers every purpose of an ordinary well-pump, it may be used for SPRINKLING GARDENS, WASHING WINDOWS, EXTINGUISHING FIRES, ELEVATING WATER, &c. It is constructed with a view to durability and simplicity, and for all general purposes, is BELIEVED TO BE WITHOUT AN EQUAL.
I am now prepared to furnish the above pumps, on short notice, fit up complete and in working order. For further information, address me by mail, or call on

Manhood: How Lost, How Restored

JUST published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the *radical cure* (without medicine) of SPERMATORRHOEA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.
Price, in a sealed envelope, only 6 cents.
The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming effects of self-abuse may be cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically.*
This lecture should be in the hands of every youth and every man in the land.
Sent, under seal, in a plain envelope, to any address *postpaid,* on receipt of six cents or two postage stamps.
Also, Dr. Culverwell's "Marriage Guide," price 25 cents. CHAS. J. C. KLINE & CO., 127 Bowery, New York, Post-Office Box 4586.

KISSINGER & CO.,

NO. 2 WEST MARKET STREET, *YORK, PA.,*

AGENTS AND DEALERS IN

PIANOS, CABINET ORGANS, MELODEONS,

AND ALL KINDS OF

MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Reikes & Schmidt, Bradbury,
Chickering & Son, Gale & Son,
Knabe & Son,

ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR
ORGANS AND MELODEONS.

These instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful Sub-Base with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.
All instruments warranted for five years.
BRASS BANDS supplied with instruments at moderate terms.
A liberal discount allowed for Churches and Sabbath Schools.
Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.
